

WHAT'S BEING PROPOSED IN CEDAR CREEK?

Pacifico Energy is proposing a 2,800-acre data center and attached 710 MW gas peaking power plant at 382 Earl Callahan Road in Cedar Creek.

At approximately 2,800 acres, this would be comparable in land area to some of the largest proposed data center developments in the country.

WHO IS AFFECTED?

Distance from site	Homes	Schools	Churches
Within 1 mile	854	3	2
Within 3 miles	5,701	14	18

WHY IT MATTERS

- This is not a remote industrial site.
- A 2,800-acre data center and attached 710 MW gas peaking power plant would sit near thousands of homes and community institutions.
